

The ergonomic proportions and lightness of structural lines guarantee both comfort and adaptability. Darwin is a steel collection, which revisits classic themes, in a delicate metal sheet mesh placed within a contemporary geometric structure. The texture effect of chair and backrest is the defining feature of the collection's style, which merges with the structural lines. The Darwin range consists of chairs, armchairs, tables, stools and counter tables, loungers and coffee tables. Defined by its exceptional style, Darwin is suited to all kinds of furnishing contexts.

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Cushion Material

Acrylic Fabric

Il tessuto 100% acrilico viene internamente spalmato con poliuretano; tale processo lo rende idrorepellente, altamente resistente ai raggi UV per un ottima performance nelle aree outdoor.
