

## Ronda / Barstool Design / Aldo Ciabatti

With over two million pieces sold, this chair has long been a landmark world-wide, with easy design, sober and elegant lines.

### Description

Code: **128**  
Typology: **Barstools**  
Collection: **Ronda**

Stackable: 8  
Static Load: 200 Kg  
Cushion Material: Acrylic fabric  
Seat Height: 76.5 cm

### Technical Info

Width: **54 cm**  
Depth: **65 cm**  
Height: **117 cm**  
Weight: **6.50 Kg**  
Static Load: **200 Kg**

### Packaging

Packages: **1**  
Pieces for pack: **2**  
Dimensions: **128x68x58 cm**  
Volume: **0.505 mc**

Polyethylene bag and cardboard box

Ronda / Barstool  
Design / Aldo Ciabatti

Colors

Antique Iron

Matt White

Black

Maple Red

Grey/Green

Indian Brown

Scarlet Red

Green

Dark Green

### Materials

#### **Steel**

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

**Maintenance:** To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

### Cushion Material

#### **Acrylic fabric**

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

**Maintenance:** To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
